1.0 CNE or  
CME credit!

**Where:** Hill Country Memorial  
Women's Pavilion Classroom  
Fredericksburg, TX

**When:** Wednesday May 3  
1230-1330

**Who:** For medical providers involved  
in the care of infants.

## The learner will:

- Increase understanding of the underlying causes of respiratory distress in the newborn,
- Increase understanding of common newborn diagnosis,
- Increase awareness of the normal newborn congenital heart defect screening,
- Increase understanding of congenital anomalies that contribute to respiratory distress.
