Organizational Profile

Methodist Texsan Hospital, a campus of Methodist Hospital, is part of the Methodist Healthcare¹ family of hospitals. The 120-bed hospital is conveniently located just north of downtown San Antonio. The team at Methodist Texsan Hospital is comprised of caring individuals focused on outstanding clinical outcomes and exceptional, friendly service. Methodist Texsan Hospital provides invaluable health care services to its community and surrounding areas in South and Central Texas. All patient rooms are spacious and private, which compliments both patient safety and a hotel-like atmosphere. Methodist Texsan Hospital excels in nearly all aspects of advanced cardiovascular services and is equipped with dedicated operating room suites and five functional heart catheterization labs. Orthopedic services, which include the famed Joint Replacement Academy, boast some of the best clinical results in the industry. Methodist Texsan Hospital's 30-bed inpatient rehabilitation unit is the newest in the community and takes a team approach to providing excellent rehabilitative care for its patients.

Our Mission: Serving Humanity to Honor God by providing exceptional and cost-effective health care accessible to all.

Our Vision: To be a world-class health care provider, continually raising the standards of performance excellence and advancing the health status of the community.

Our Vision: To be world-class

Our Values: I-CARE: Integrity, Compassion, Accountability, Respect, Excellence

Community Benefits Committee – Guiding Community Outreach

The Methodist Healthcare System Core Competency, *building partnerships to serve our community*, enables achievement of the mission of service to the community (Serving Humanity) through compassionate service, efficiency, and effectiveness with a servant leadership attitude (being responsible stewards of Methodist Healthcare's assets while honoring God). The Mission supports regular, consistent impactful contributions to strengthen the health of the community guided by the Community Benefits Committee. Formed in 1995 as a result of the partnership agreement, the

¹ Methodist Healthcare is comprised of 28 facilities, including eight hospitals. Methodist Healthcare was formed as a 50-50 co-ownership between the Methodist Healthcare Ministries of South Texas (MHM) and HCA. MHM is a private, faith-based, not-for-profit organization dedicated to providing medical and health-related human services to low-income families and the uninsured in South Texas. MHM is second only to the government in providing health care to the indigent population in a 72-county area. HCA, based in Tennessee, is the nation's leading provider of health care services, composed of more than 250 hospitals and freestanding surgery centers in 20 U.S. states and in the United Kingdom.

Community Benefits Committee is a standing committee of Methodist Healthcare. The committee meets quarterly to review community benefits provided by Methodist Healthcare. Members include representatives from Methodist Healthcare’s Community Board, Board of Governors and leadership from Methodist Healthcare and Methodist Healthcare Ministries, as well as key staff members from each organization. An annual community report is submitted by the president and CEO of Methodist Healthcare, to the Community Benefits Committee, Board of Governors, Community Board, and MHM recapping the complimentary programs offered to the community, a great many of them directed to those less fortunate. The report includes a summary trend chart of actual services. In addition to the annual report, a quarterly report is presented on various aspects of Methodist Healthcare’s community involvement focused on measuring community activity that benefits the underserved.

Population Served

In 2015, Methodist Texsan Hospital served

Emergency Department Patients	Inpatients	Outpatients	Outpatient Surgery	Total
10,633	4,582	5,982	176	21,373

In 2016, Methodist Texsan Hospital budgeted for

Emergency Department Patients	Inpatients	Outpatients	Outpatient Surgery	Total
11,247	4,767	6,247	183	22,444

Methodist Texsan Hospital service area of 58 Zip codes located in 14 counties (Bandera, Bexar, Comal, Gillespie, Guadalupe, Kendall, Kerr, Kimble, Kinney, Maverick, Medina, Uvalde, Val Verde and Wilson) has an estimated population of nearly 1.9 million². Since this geographic area is majority Hispanic, we see this reflected in our patient population. Our service area also includes underserved rural areas.

Figure 3 Population Age and Gender⁵

To help meet the needs of our rural communities, Methodist Healthcare manages Medina Regional Hospital in Hondo, Texas, Val Verde Regional Medical Center in Del Rio, Texas, Cuero Community Hospital in Cuero, Texas, and Frio Regional Hospital in Pearsall, Texas. This enables these hospitals to provide the community with resources that otherwise may not be available. Methodist Healthcare provides a neuro telemedicine program, Tele-Stroke, to Connally Memorial Medical Center (Floresville, Texas), Guadalupe Valley Regional Medical Center (Seguin, Texas), Fort Duncan Regional Medical Center (Eagle Pass, Texas), Dimmitt Regional Hospital (Carrizo Springs, Texas), Laredo Medical Center (Laredo, Texas), Peterson Regional Hospital (Kerrville, Texas), Medina Regional Hospital (Hondo, Texas), Frio Regional Hospital (Pearsall, Texas), South Texas Regional Hospital (Jourdanton, Texas), Memorial Hospital (Gonzales, Texas) and Cuero Community Hospital (Cuero, Texas). The Tele-Stroke program provides these rural Texas hospitals access to Methodist Healthcare neurologists who can remotely diagnose and treat stroke patients when minutes count. Methodist Healthcare also has abdominal transplant program satellite clinics in numerous Texas cities including Lubbock, Corpus Christi, McAllen, Laredo, Temple, Austin and will open another clinic in El Paso.

The majority of the population Methodist Texsan Hospital serves is Hispanic. In order to meet the needs of those whose primary language is not English, Methodist Texsan Hospital offers:

- Language interpretation – 200 languages available 24/7, 365 days a year through a relationship with STRATUS. Methodist Healthcare has video remote interpretation (VRI) throughout the organization, for patients and families requiring language assistance.

⁵ ERSI 2013 Demographic Report

- Methodist Texsan Hospital provides materials and forms in Spanish (additional languages upon request). As a large percentage of the population turns to the internet for health and wellness information, Methodist Healthcare's website, SAHealth.com, is available in Spanish.

Community Needs Assessment Methodology, Process and Community Involvement

Methodology

Methodist Healthcare is a founding member of The Health Collaborative (THC), a nonprofit convening organization that brings together hospital systems, other health care organizations, local government and nonprofit organizations in Bexar County to identify and solve community health issues through collaboration. THC has conducted its Bexar County Community Health Needs Assessment (BCCHNA), an in-depth look at local health, since 1998 and Methodist Healthcare has used this assessment to analyze, prioritize and act on the health-care needs of the community. Conducted every three years, the BCCHNA has evolved into a national model recognized for its comprehensiveness and for the community engagement and collaboration it has fostered.

Members of THC include: Methodist Healthcare, MHM, Appdiction Studio, Baptist Health System, Bexar County Department of Community Resources, CHRISTUS Santa Rosa Health System, Community First Health Plans, Our Lady of the Lake University, the City of San Antonio Metropolitan Health District, University Health System, University of Texas Health Science Center at San Antonio Department of Family and Community Medicine, SA Clubhouse, ILX Health Strategies Group and the YMCA of Greater San Antonio. Funders of the THC Community Health Assessment are Baptist Health Foundation, Bexar County, the Kronkosky Charitable Foundation, the United Way of San Antonio, San Antonio Metro Health Department and MHM.

THC bases its community health assessment on the social determinant model which views outcomes as a product of health-related behaviors and the behaviors themselves as a likely product of social dynamics at the level of the social context of the neighborhood. The BCCHNA uses data from the San Antonio Metropolitan Health District's annual Health Profiles, a report which looks at health trends, area demographics, information on prevalence of disease, and other findings. Health Profiles looks at the population by age, by gender and by race/ethnicity as it relates to current population, projected population, birth, education, ZIP code and census tract. It also provides an in-depth look at birth trends, including fertility rates, maternal health, maternal age and ethnicity, teen births, low birth weight and premature trends and mother's BMI and weight gain. Youth indicators examined include juvenile probation, family violence, immunization rates, and child abuse. Deaths are examined by infant mortality rate and causes, life expectancy by race/ethnicity and gender, all causes of death, and years of potential life lost. The BCHNA also draws from the following data sources: Population and housing data from the U.S. Census Bureau; population estimates and projections from the Texas State Demographic Center at the University of Texas at San Antonio; social and economic conditions data from the U.S.

Census Bureau American Community Survey; crime data from the U.S. Department of Justice Uniform Crime Report; vital statistics, Behavioral Risk Factor Surveillance System (BRFSS), injury, hospital discharge, hospital bed, and health professions data from the Texas Department of State Health Services; Medicaid and public benefits data from The Texas Health and Human Services Commission; and communicable disease and vital statistic data from the San Antonio Metropolitan Health District.

Finally, data is collected at the neighborhood level with the intent of describing the social contexts that possibly give rise to health-related behaviors described in the Health Profiles and BRFSS survey data. Discussion groups and interviews were conducted city-wide with over 160 participants, ranging from community residents, service providers, government staff and officials, and advocates for the health of Bexar County’s low-income, medically-underserved and minority populations (See Community Partners). These interviews and meetings took place during March and April of 2016. The Health Collaborative contracted with Community Information Now (CI:Now), a local data intermediary serving south central Texas, for quantitative data collection and analysis and for development of the assessment narrative.

The final assessment was released by THC and local city and county officials at a breakfast meeting whereby a cross section of grassroots and city leaders were invited as well as participants from the focus groups and one-on-one interviews conducted for the assessment. The Executive Summary of the assessment was provided to all attendees.

In order to assess the rural areas Methodist Healthcare serves, University Health System’s (UHS) Regional Healthcare Partnership (RHP) 6 plan was utilized. Thee Texas Health and Human Services Commission established geographic boundaries for new Regional Healthcare Partnerships (RHP). Each RHP has developed a plan that identified the participating partners, community needs, proposed projects and funding distribution. RHP 6 is anchored by University Health System and includes the following counties: Atascosa, Bandera, Bexar, Comal, Dimmit, Edwards, Frio, Gillespie, Guadalupe, Kendall, Kerr, Kinney, La Salle, McMullen, Medina, Real, Uvalde, Val Verde, Wilson, and Zavala.

Identified Community Needs: Working Together to Meet the Goals

In order to work collaboratively with other health care systems and organizations, businesses and nonprofits and make a true impact in our community, Methodist Healthcare has adopted the health priority areas based upon the 2016 three-year Bexar County Community Health Assessment. The health priority areas for our hospitals listed in priority order (these same five priority areas have not changed since the last community health improvement plan adopted in 2014):

Community Health Priority No. 1: Healthy Eating and Active Living

The percentage of Bexar County adults who consumed fruits and vegetables five or more times per day has remained flat over recent years, estimated at 17.1% (14.2%-20.5%) in 2011 and 15.4% (11.8%-19.8%) in 2013. Although the point estimate is lower in 2013, the confidence intervals overlap almost completely, meaning there was actually little or no real change among BRFSS respondents. The news is better for sugar-sweetened drinks with the percent of adults reporting that they never drink sugar-sweetened beverages increasing from 22.7% (16.9%-29.7%) in 2012 to 36.0% (31.2%-41.1%) in 2014. Because the confidence intervals do not overlap at all, there clearly was a true increase among respondents

Community Health Priority No. 2: Healthy Child and Family Development

Although the birthrate among females aged 15 to 19 continues to decline, the percentage of births to mothers receiving prenatal care in the first trimester has also declined, leading to an increase in the rate of hospitalizations for complications of pregnancy or childbirth.

Community Health Priority No. 3: Safe Communities

Although the numbers point to crime rate decreasing overall in Bexar County, there are other contributing factors to “Safe Communities”. Motor vehicle accidents are a common cause of death among children age one to 14, pointing to the importance of child safety seats and seat belts as well as adult and older teen driver behaviors. Transportation is seen as one of the greatest challenges for the region for those who do not have private vehicles or easy access to public transportation.

Community Health Priority No. 4: Behavioral and Mental Well-Being

Health is about more than the physical body. Mental health is related to how people think, feel and act as they cope with life—how they handle stress, relate to others and make choices. In Bexar County, There is growing clinical recognition of the impact of mental health conditions and disorders on overall health status and costs. There does appear to be a steady increase in the mental illness related hospitalization rate between 2010 and 2014. The goal is to improve comprehensive behavioral health services and access for all.

Community Health Priority No. 5: Sexual Health

One of the most pressing health concerns voiced by Bexar County residents is teen pregnancy. Although the birth rate to teens ages 15-19 has declined in Bexar County, it is still an overwhelming concern. In addition, sexually transmitted infections can threaten people of any age, including unborn babies. While syphilis can be easily detected and treated in the mother, when untreated it can have devastating effects on the health of the baby. Our goal is to ensure that males and females have access to education and resources to promote sexual health.

Area Health Services⁶

A listing of existing health care facilities and other resources:

The Primary and Core Based Statistical Area offers the following health facilities and resources:

- Methodist Healthcare System
- Methodist Healthcare Ministries
- Wesley Health and Wellness Center
- Bishop Ernest T. Dixon Jr. Clinic
- San Antonio Metropolitan Health District
- Bexar County Department of Community Resources
- Bandera County
- Medina County (Medina Healthcare)
- Wilson County (Connally Memorial Hospital)
- Kerr County (Peterson Regional Hospital)
- County Health Departments
- Maverick County (Fort Duncan Regional Hospital)
- University Health System
- Audie L. Murphy Memorial VA Hospital
- San Antonio Army Medical Center
- CHRISTUS Santa Rosa
- Baptist Health System
- Nix Health
- Southwest General Hospital
- San Antonio State Hospital
- Barrio Comprehensive Family Health Center
- Centro Med
- La Mision Family Health
- Adolescent Pregnancy and Parenting Program
- Father Flanagan's Boys Town
- Center for Health Care Services
- Child Guidance Center
- Southwest Mental Health Center
- Warm Springs

⁶ The area health services listed is a sampling of the represented services available and is not all inclusive

Methodist Texsan Hospital's Community Health Improvement Plan based on the Community Health Needs Assessment

Community Health Priority No. 1: Healthy Eating and Active Living

Community Goal: To foster social change and strengthen positive behaviors around healthy eating and active living to ensure access to nutritious foods and build environments that enable all residents to make healthy choices and lead healthy lives.

Objective: To collaborate with existing community organizations to provide resources for patients and their families regarding healthy eating and active living.

Strategy:

- To promote healthy eating and active living amongst patients, the surrounding community and Methodist Texsan Hospital employees, encouraging them to spread this information to their loved ones.

Tactics: In 2017, Methodist Texsan Hospital will implement the following tactics, with yearly updates through 2019:

- Chefs to provide one healthy cooking demonstration annually. Methodist Texsan Hospital anticipates 30 attendees in 2017.
- Methodist Texsan Hospital will provide literature (English and Spanish) about healthy eating and exercise in the lobby and waiting areas throughout the hospital for patients and their families. Goal: Distribute 100 pieces per month in 2017
- Methodist Texsan Hospital will stock diabetes literature in waiting room and lobbies throughout the hospital for patients and their families. Goal: Distribute 100 pieces per area, per month. Hold one diabetes education class per year. Methodist Texsan anticipates 20 attendees in 2017.
- Hold a healthy food drive for the San Antonio Food Bank (led by staff nurse governance board). Methodist Texsan Hospital anticipates one food drive in 2017.
- Have Methodist Texsan employees volunteer at the San Antonio Food Bank. Methodist Texsan Hospital anticipates 25 volunteer hours annually beginning in 2017.

Impact: Through the tactics listed above, Methodist Texsan Hospital will bring awareness to healthy eating and active living issues as well as contribute to the decrease the obesity, hypertension and diabetes rates.

Measurement:

- Attendance to events, seminars, classes and screenings
- Number of website views
- Percent increase in social media followers
- Percent increase in affinity group members
- Restocking literature

Key Partners:

- UTSA
- SAISD
- H-E-B
- Area Schools
- San Antonio Food Bank
- Healthy Restaurants Coalition
- The Health Collaborative

Community Health Priority No. 2: Healthy Child and Family Development

Community Goal: To make pregnancy and early childhood the focus of system level changes that support healthy child and family development.

Objective: To promote family stability by supporting education classes that promote mental health, community resources and health conditions for children.

Strategy: To provide education and assistance through literature, speaking seminars, health fairs, and other programs and partnerships with organizations in the community and to leverage current system wide initiatives.

Tactics: In 2017, Methodist Texsan Hospital will implement the following tactics, with yearly updates through 2019:

- Distribute printed material to educate community about breastfeeding and prenatal care. Methodist Texsan Hospital anticipates distribution of 50 pieces of literature in waiting areas per month in 2017.

Impact: Through the tactics listed above, Methodist Texsan Hospital will bring awareness to healthy child and family development issues, as well as contribute to the decrease of complications in pregnancy, infant mortality rates and preventable childhood developments will decrease.

Measurement:

- Attendance to events, seminars, classes and screenings
- Number of website views
- Percent increase in social media followers
- Percent increase in affinity group members
- Restocking literature

Key Partners:

- San Antonio Metropolitan Health District
- School districts
- Methodist Women's Center
- Methodist Family Health Centers

Community Health Priority No. 3: Safe Communities

Community Goal: To develop safe neighborhoods by identifying what works locally, planning how to replicate successes in our neighborhoods, and enhancing systems that respond effectively to community-identified safety needs.

Objective: To partner with key organizations to develop effective tactics to make the community safer.

Strategies:

- To engage and partner with political leaders, neighborhood associations, safety officers, community groups, and other existing organizations in high risk areas to join in outreach efforts and arrange meetings in their areas
- To complement neighborhood sweeps education initiative regarding pet owner responsibility

Tactics: In 2017, Methodist Texsan Hospital will implement the following tactics, with yearly updates through 2019:

- Partner with Balcones Heights, Shavano Park and Castle Hills Police Departments to hold self-defense classes for the community and staff (in courtyard). Methodist Texsan Hospital anticipates 20 attendees in 2017.
- Partner with area animal rescue groups to provide education to neighborhoods on animal safety and control. Methodist Texsan Hospital anticipates a minimum of 25 volunteer hours in 2017.

Impact: Through the tactics above, Methodist Texsan Hospital will bring awareness to safe community issues as well as contribute to safer neighboring communities and access to care.

Measurement:

- Attendance to events, seminars, classes and screenings
- Number of website views
- Percent increase in social media followers
- Percent increase in affinity group members
- Restocking literature

Key Partners:

- Balcones Heights Police Department
- Balcones Heights Fire Department
- Animal rescue groups
- San Antonio Crime Coalition

Community Health Priority No. 4: Behavioral and Mental Well-Being

This community health priority is addressed as a system. Please refer to page 20 of the Methodist Healthcare System plan, Community Health Priority No. 4.

Community Health Priority No. 5: Sexual Health

Community Goal: To ensure that males and females have access to education and resources to promote sexual health.

Objective: To improve the sexual health of our community by promoting educational awareness

Strategies:

- To collaborate with agencies that are currently providing resources
- To research evidence-based methods of decreasing teen pregnancies

Tactics: In 2017, Methodist Texsan Hospital will implement the following tactics, with yearly updates through 2019:

- Educate community regarding STDs by obtaining pamphlets from the Centers for Disease Control and Prevention to distribute in the facility and at community events. Methodist Texsan Hospital anticipates 200 pamphlets to be distributed in 2017.

Impact: Through the tactics listed above, Methodist Texsan Hospital will bring awareness to sexual health issues as well as contribute to the decrease in teen pregnancies and sexually transmitted diseases.

Measurement:

- Attendance to events, seminars, classes and screenings
- Number of website views
- Percent increase in social media followers
- Percent increase in affinity group members
- Restocking literature

Key Partners:

- UT Teen Health
- Bexar County Ryan White Program
- Methodist Family Health Centers
- City of San Antonio Metropolitan Health Department

Implementation of the Strategy

The implementation strategy, including an execution plan and prioritization of health needs, services and metrics for each hospital will be presented to and approved by the Community Benefits Committee, Methodist Healthcare Community Board, Methodist Healthcare Board of Governors and MHM.

The chief executive officer at each facility has appointed an advocate to work with the Methodist Healthcare Strategic Planning and Market Services Department to implement and monitor the plan. The hospital chief financial officer also has appointed a representative to attend the meetings to monitor budget adherence. These individuals form a committee that will meet twice a year.

Methodist Healthcare’s implementation strategy for each hospital facility includes:

- Communication plan
- Priority initiative work plans
- Role and responsibility assignments
- Measures/indicators for success along with baseline data

Additional monitoring of the plan will occur through the quarterly community benefits reports to the Community Benefits Committee and the annual charity care report compiled and distributed to the Community Benefits Committee.

Availability of the Community Health Needs Assessment and Implementation Plan

A digital version of the assessment and plan will be available on our website, www.SAHealth.com. A printed version will be distributed to employees and physicians and will be available to the public upon request.

Approval:

Methodist Texsan Hospital Chief Executive Officer
